"The Bumble Boost"

THE SKY'S NOT THE LIMIT

I am a IT student, striving to become a software engineer. I am focused on working hard to achieve my goals and enjoy learning about my interests, always pushing to set the bar higher and higher.

I care about working hard with determination while learning new skills and knowledge while still being able to make time for hobbies and being able to spend time with the people who matter most to me.

My GitHub profile:
https://github.com/TiagoMartins300905

My logo is inspired by the Dodge Super Bee. The Bumble Boost is a bumble bee that represents my passion for cars and games as well as symbolic to my work ethics, done quick and precise.

Ultimately I'm working towards a future where I will be leaving a piece of innovation to inspire future generations and be successful in working around the things that I am passionate about.
